

I Poster guidelines

Abstract submission is closed.

Presenting authors of accepted abstracts must register online.

The Organizing Secretariat offers a discounted price of € 620 (VAT included) for Poster presenters only.

If the other authors of the poster want to attend the congress, they must pay the regular fee.

In addition to the traditional poster exhibit, a computer “streaming presentation” of the Posters will be organized during the Como Congress in a special room: this consists of a computer display of up to 5 power point slides prepared by the author(s) to complete a poster with pertinent details or instructive commentaries.

The authors are therefore requested to prepare power point slides (up to 5) to accompany each of their posters.

During the Congress, the Poster Jury as well as the attendees will have access, at any time, to the stream presentation of any posters on the program:

Twelve Posters will be selected by the Jury, to be given in an **oral presentation**

(5 min. + 5 min. discussion) during a Plenary Session scheduled for Monday, September 3, 2012
10:15 am – 12:00 pm.

Copies of the power point slides should therefore be kept by the presenting author, to be used in case of selection of the poster for oral presentation.
